

IPW Team Incentive!!

Who:

Iron Pit Woods team members

What:

Main team member incentive covers getting all green & mentions etc this in addition to that. For each month that IPW beats its department profit target each IPW team member working (will receive 1 coin each).

In addition, each team member will receive 1 coin for every 10 paid upgrades (from just 1 activity to a combi).

As with other incentives it is the responsibility of the HOD, to ensure this is given to accounts so that payments can be made. The incentives will be one month in arrears. So, for example if this is achieved in September, proof of that needs to be with accounts by the 15th of October allowing those coins to be issued and added to the tracker!

How is it measured:

Jamie will monitor this and provide monthly statistics to Carina to enable coins to be issued and the total added to the main tracker.

When:

Starts effective Jan 1st, no end date currently.

Why are we doing this:

The better the profit the more we can continue to develop and the more we can do for the team!
